INSTRUCTIONS

The correct dial telephone numbers of all REA Offices are listed in this directory. Employees should familiarize themselves with the instructions which follow regarding the proper use of the dial system so that good telephone service may be maintained.

HOW TO USE THE DIAL TELEPHONE

GENERAL

1. Obtain the correct number from the directory before dialing.
2. Do not dial until you hear the dial tone, a steady humming sound.
3. If you make a mistake when dialing, hang up the receiver a few seconds before dialing again.
4. Do not touch the receiver cradle or dial while talking.
5. If the number dialed is busy, a rapid intermittent sound will be heard.
6. Hang up the receiver, wait a reasonable time and dial the number again.
7. If the number dialed is not busy, a slow intermittent sound will indicate that the number is being rung.

OUTSIDE CALLS FROM UNRESTRICTED AND RESTRICTED TELEPHONES - OFFICIAL USE ONLY

Listen for dial tone. Dial 9 and wait for a second dial tone. Dial the first two letters of the Central Office name. Dial all the figures of the number. Dial the party line, letter, if any. Certain telephones are restricted from outside service. When 9 is dialed from these telephones it will not be effective; a busy signal will be heard.

LONG DISTANCE AND TOLL CALLS

After dial tone is heard, dial the figure "0" (operator) and ask for long distance. All long distance calls must be given to the REA long distance operator.

SIGNALING THE OPERATOR TO TRANSFER CALLS

Calls originating on the dial equipment in REA cannot be transferred by the operator. On incoming Central Office calls and other calls handled by the operator, you may signal the operator to transfer the call to another telephone or for any purpose by moving the receiver hook up and down slowly.

TO REPORT TROUBLE

If difficulty of any nature is experienced, call the REA Chief Operator by dialing Extension 400.

USE PAY TELEPHONES FOR PERSONAL CALLS
